Delivering for our local communities

A fair and decent pay rise for <u>all</u> local government workers

Dear Councillor Evison

Last year you gave teachers a bigger pay rise than other local authority workers, despite us all delivering for local communities. I understand this could happen again this year. I don't think that is fair.

UNISON have lobbied the Scottish Government for additional resources for local authorities. If COSLA values its workforce equally then if teachers get more you must ensure that all local authority workers get more.

You cannot deliver for local communities across Scotland without the efforts of local authority employees like me. Please make sure we all get the fair pay we deserve.

Yours sincerely
